

## Upgrading fairies

You can try upgrading your fairies through the Undercity Engineer at the Undercity

The fairy's grade is between +0 and +9.

Whenever the fairy's grade is increased, it gets an effect with different grades. According to the grades, the number of effects that the fairy can have at most is limited.

S : 2 / A : 2 / B : 2 / C : No limit

Once a certain effect is gotten, the fairy cannot get the same one later.

To trade the upgraded fairy, it should enter 'Fairy Bead'. Its grade is preserved.

If you fail the try for upgrading, only materials are consumed. If you don't like the latest effect, you can remove it from the fairy using a special item. (Similar to Rune Solvent)

If you fail to upgrade the fairy, there is a certain chance to causing 'overloaded' to the fairy. It means the fairy can not be upgraded any more. But with using Golden Tool, you can release the fairy from the overloaded condition.

Fairy upgrade effects according to each grade

Grade	Effect
1, 2, 3	HP is increased by X
	MP is increased by X
	MP is increased by X%
	Damage from critical hits is reduced by X%
	Probability to receive critical hits is decreased by X%
	All defences are increased by X
4, 5, 6	Increases damage from critical hits by X%
	Experience gain is increased by X%
	Up to level 4 there is a X% chance of never getting a bad effect
	Reduces damage received in PvP by X%
	All defences are increased by X%
	All elemental resistance is increased by X
	Increases champion experience received by X%
7, 8, 9	Increases the equipped fairy's element by X
	All attacks are increased by X%
	Chance of inflicting critical hits is increased by X%
	All attacks are increased by X
	Increases Gold earned by X%
	Enemy's elemental resistance in PVP is decreased by X
	Increases PvP attack power by X%
	HP is increased by X%

## Enchanting fairies

You can enchant fairies from upgradelevel +1 on.

When you enchant a fairy, all its effects will be changed randomly.

Each rarity has grades C, B, A and S.

According to the grades, the number of effects that the fairy can have at most is limited.

S : 2 / A : 2 / B : 2 / C : No limit

When you click the button for enchanting on the UI, you can see the result in advance.

If you don't want the result, you can cancel the try. But the materials will be consumed.

When you confirm the result surely, then the fairy will have the effects with consuming the materials.

Enchanting fairies cannot fail, different from betting equipment.

### Fairy Enchantment effect values
